

Letter of Thanks

People's Procuratorate of Yinzhou District:

On behalf of the brand Lumenis, we would like to extend our most sincere gratitude to your bureau for the professional spirit and efficient case handling demonstrated in the field of combating counterfeiting and shoddy goods and protecting intellectual property rights!

Lumenis is a globally leading medical laser equipment company with a history of nearly 60 years. Headquartered in Israel, it is a pioneer in the field of aesthetic & vision technology. In recent years, our company's globally renowned brand Lumenis has been repeatedly counterfeited by lawbreakers, which has seriously damaged the brand's reputation and disrupted the fair competition order in the market.

Your Procuratorate's quick response and professional handling have been crucial. Prosecutors meticulously examined the case, ensuring fairness at every step. Through efficient actions, you brought the infringers to justice, alleviated our losses, and purified the market.

Here, we sincerely express our heartfelt gratitude to your Procuratorate for giving full play to its procuratorial functions, effectively cracking down on criminal acts of trademark infringement, and safeguarding the fair competition order in Chinese market. Your work has strengthened our confidence in China's legal environment. We are truly thankful to all staff, particularly the public prosecution team. We look forward to your continued support and believe it will enable us to contribute more to the Chinese market.
